

The TeleMarketing "No Call" law has greatly improved ourfamily time at home which is greatly limited. Before the law we were getting from 3 - 7 calls a day. They always seemed to come in the evening between 6 and 10 p.m. and many times on Sunday. I would get very annoyed at the late calls especially as we retire early. After being put on the no call list these calls were practically eliminated. Now only 3 -5 per month. Indiana no call law should stand as is! If I want to do business with a company, I will call them.
